

CLIMATE CHANGE & HEALTH- INEQUALITIES

we pay for with **WASH**

Eunice T. Phillip

Waste

33% of the worlds' produce ends up

\$990 BILLION

25% of that wastage could feed 870 million hungry mouths

Climate change effect

A buse

220,000 coffee cups disposed in 10 hours in Ireland

- Estimated 40,000 children are working in DRC mines- UNICEF

Children as young as seven mining cobalt used in smartphones, says Amnesty

Amnesty International says it has traced cobalt used in batteries for household brands to mines in DRC, where children work in life-threatening conditions

Silence

Family dig for son in Zimbabwe

- 93,000 tonnes of bananas (70% from Costa Rica).
- 62,000 tonnes of apples imported - (CSO, 2017).

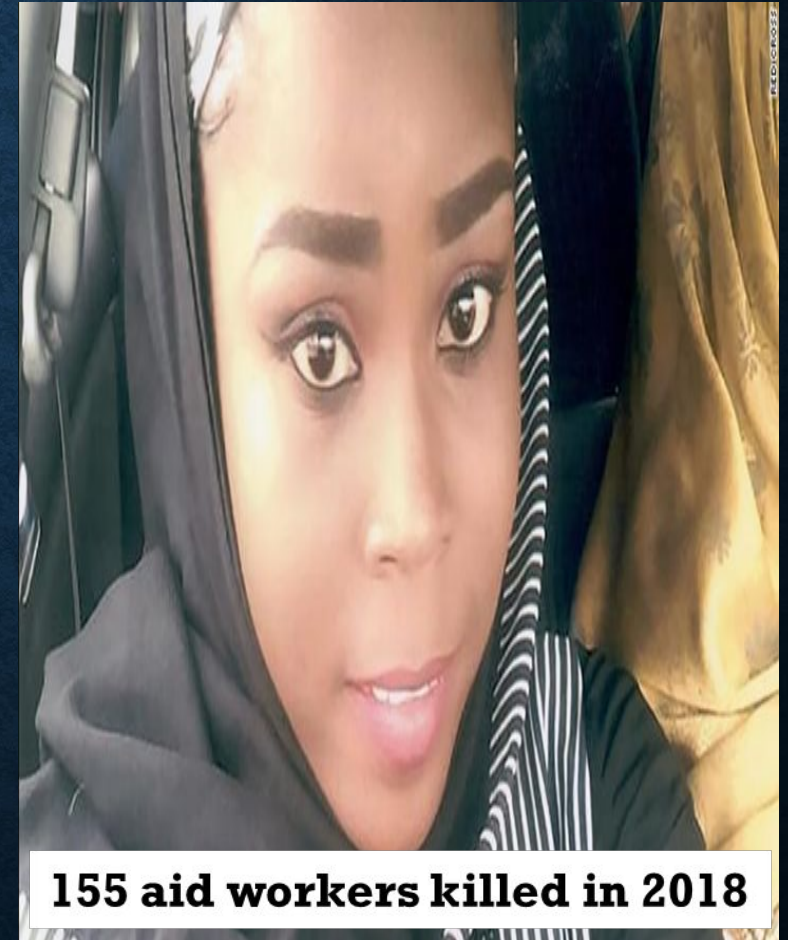

1.85 million people

**UK environment department using
1,400 disposable coffee cups a day**

Figures show more than 2.5m cups were purchased in the past five years despite pledges by the environment secretary to tackle growing plastic waste

Waste
Abus
Silence
Hypocrisy

155 aid workers killed in 2018
