MUIMME Donor Human Milk Bank Research Sites in Britain and Ireland

Rubik Cube of Banking on Milk

Trust

In donors, the milk and the process.

Translation

To healthcare providers but also to parents of recipients

Technology

Throughout the process and is key to tracking and tracing

Transition

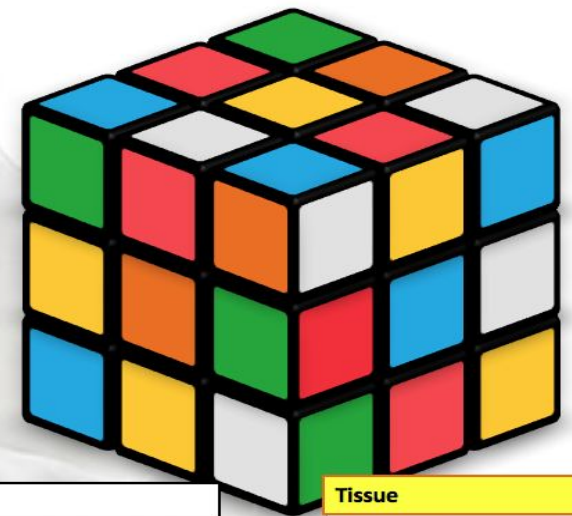

The future is to have no mother turned away and no drop wasted which means research.

Time

From birth to the pumping, it is all about time.

Tissue

This is both mother and infant(s), both self and other, both food and medicine.
